Unveiling Honour Roll at Presbyterian Church

The unveiling of the Honour Roll in the Presbyterian church last Friday evening was one of the most interesting meetings that has been held in Red Deer for a long time. The Roll of Honour itself is a splendid piece of work in which the skill of Mr. H. G. Stone is seen at its best. It is set in a handsome frame the work of Mr. C. T. Elmer. Mr. Brown, as chairman of the meeting, expressed the genuine appreciation of the congregation to both of these men who had donated this product of their skilled labor to the church. He also announced that Mr. Michener had expressed his regret at being unable to be with them that evening. Mayor Smith, on behalf of the City expressed his gratification at the patriotism of the people of the city and district of Red Deer as shown by the heavy enlistment of our young men and said that he doubted whether any city in the Dominion could equal the record of Red Deer in this matter.

Sergeant McEwan, representing the Veterans Club, emphasized the duty of the people showing their appreciation of the service that the men are giving and hoped that all the people would extend the glad hand when the boys come home.

No one could distinguish between true patriotism and true religion and the worship of the people found expression in the singing of the 20th Psalm and the hymn "Oh God Behead," after which the Rev. Mr. Ryan led the congregation in prayer. Capt. W. S. Stewart, of the Governor General's body guard, unveiled the Roll of Honour and gave an address on the life of the men at the front that cannot be fully reported, not for lack of space, but because no one could resist an inspiration. Someone has said that war is stranger than fiction, and all who heard Capt. Stewart's experiences must agree that this is true. With four bullets in his legs, bayonet wounds on his arms, the sight of one eye gone, almost totally blind, he is a living miracle which he partly attributes to the purity of his blood, he having never used either liquor or tobacco, though he is the veteran of many campaigns, having been through the South African war with the Scotch Greys, though he is an Irishman from Ulster, and a member of a distinguished musician as well as a great soldier.

Dr. Michael Clark, M.P. for Red Deer, is always heard with pleasure by a Red Deer audience, but he struck the highest note on Friday evening when he spoke of the men on the side of the great war. "Can we prove that our cause is just?" was his question. His appeal to the Old Testament standard of righteousness as compared with Germany's ruling ideal—"Might is Right," and to the New Testament law of love over against the German's law of frightfulness was irresistible. With 3 sons on active service, Dr. Clark's words to the friends of the men at the front were full of meaning. Of the 66 men whose names are on the Roll of Honour, 3 have already given their lives for the cause of Honor and Liberty, and for these a suitable memorial service will be held next Sunday evening.

LAST CZAR ON THRONE OF ALL RUSSIA

Russian Government Announces that Russia will Keep up the Fight with Even Greater Vigor than Before

WASHINGTON, March 19th.—Official news of the abdication of Czar Nicholas II. and his son and indications that the workmen's committee was opposing monarchy of any sort and demanding a social republic were reported to the state department today in a cablegram from Ambassador Francis, dated March 17th.

Officials were deeply interested in the reference to the workmen's demands because, according to Russia's further efforts in the war has been felt to lie as much in extreme radicalism as in counter revolution, by the court party. Later unofficial dispatches have indicated that a compromise has been reached between the duma and the workmen.

LIAR! BLASPHEMY! FROM MINISTER OF EDUCATION CAUSE OF RUMPUS.

Hon. J. R. Boyle Makes a Dash for Dr. Stanley, and Chaos follows Swearing

(Edmonton Journal, March 17)
The Alberta education committee of the Alberta legislature broke up in wildest disorder yesterday when the minister of education, in a frenzy of anger, called Dr. G. D. Stanley (High River) a "City G—r— brute and a lying hound." It was one of the most disorderly scenes ever enacted in provincial parliamentary circles, far exceeding the promiscuous excitement in the A. & G. W. days. Dr. Stanley had said that if the minister of education, in proceeding to make a statement, was not in the habit of trying to get real evidence and information it was false. Mr. Boyle sprang up, almost speech-

less, and then burst forth with the above statement, following it up with his own person and the apparent intention of reaching Dr. Stanley. Strong men grasped the arms of the minister of education and stopped him before he succeeded in getting under the table. The session was a rough battle from the start, the leading performers being T. M. Twissie (Centre Calgary), Hon. Wilfrid Gariepy, and Dr. Stanley. The chairman, J. McNaughton (Little River), was not in the room at all for a period after the incident, though he endeavored to do his utmost to quell the row and bring order out of chaos.

Red Cross Notes

At a meeting of the Executive of the Red Cross Society on Monday afternoon, it was decided to rent from Smith & Sons a store on Ross Avenue. The work of the Red Cross has grown to such proportions that it is all but impossible to get a centrally located place to work in and to store the goods.

The grain day for farmers was discussed and it was decided to postpone the grain day to later in the season owing to probable bad roads on March 30th.

Re. L. Gaez, owing to press of work, was unable to stand on the finance committee and Rev. Father Voisin was appointed in his stead. W. E. Payne was appointed to the finance committee at last meeting, but his name was overlooked in our report of proceedings.

Donald McRae Dead

Donald McRae, aged 52 years, a settler who resided near Condon and had a farm, N.W. 1 of section 38, T. 5, S. 6, of the 5th M., on which he had put in one more crop before getting his patent, died on Friday, March 16th.

A few days before his death he left his homestead, it is claimed, his horses, cattle, implements, and all personal effects to J. D. McDonald, better known as Chief McDonald, residing near Condon, who was supposed to be a friend and visited him at the hospital. Deceased was employed in Frank Petter's mill for a long time and was a hard working and friendly man. He has one sister. He was buried on Monday from Stone's undertaking parlour without so much as a friend to follow his remains. On enquiry at the land office, the farm is a valuable one and the patent will be given on the land being cropped this summer.

On Saturday, March 24th, Arthur Rogers will sell the stock and implements of Mr. John Ross, Springvale. Free lunch will be served at noon.

On Thursday, March 29th, N. White sells the stock and implements of Mr. J. Morrison, 4 mi. southeast of Penhold. 30 head of horses and 23 hogs are being offered, as well as some grain.

On Friday, March 30th, A. Rogers will sell the stock, implements and furniture of G. A. Gully, at the Mrs. Brownrigg place, 7 miles west of Red Deer, and one mile north of Sylvan Lake trail. Lunch served at noon.

Roll of Honour

Word has been received in the city that Pte. J. Baker, who was in the 1st Battalion, 1st Brigade, in the city, and who enlisted in the 51st Battalion, was wounded on February 5th, and is now in a London hospital on February 15th.

Curling Notes

The following are the results to date of the various cup competitions of the Red Deer Curling Club. Graham beat Bonnick in the final for the Prince of Wales Cup, between Graham and Brown, and for the Drummond Cup, the final for the Scott Cup is between R. Stone and Brown. For the Payne Cup, between Plaxton and Brown, and for the Stephenson Cup, between R. Stone and Plaxton.

HORN HILL, RED CROSS

A very successful sewing meeting was held at Mrs. E. Vincent's on the 14th, about twenty-three ladies being present. A great deal of work was brought back finished and more distributed. A silver collection was taken and realized three dollars and thirty cents.

These weekly meetings will not continue after spring work starts. The ladies will still continue to sew during summer months but can't meet so often.

A second shipment was made to Calgary consisting of the following: 100 lbs. butter, 100 lbs. lard, 100 lbs. sugar, 100 lbs. flour, 100 lbs. rice, 100 lbs. beans, 100 lbs. peas, 100 lbs. lentils, 100 lbs. corn, 100 lbs. oats, 100 lbs. barley, 100 lbs. rye, 100 lbs. wheat, 100 lbs. buckwheat, 100 lbs. millet, 100 lbs. sorghum, 100 lbs. amaranth, 100 lbs. quinoa, 100 lbs. buckwheat, 100 lbs. millet, 100 lbs. sorghum, 100 lbs. amaranth, 100 lbs. quinoa.

BAPTIST CHURCH NOTES

Rev. L. E. Brough was greeted with a large audience last Sunday afternoon at Poplar Ridge. After the service, a social hour was given for having a weekly meeting in the school. Service next Sunday at 3 o'clock. Subject, "The Church." Free lunch will be served at noon.

It is nearly thirty years since Rev. L. E. Brough preached, as a student, in Poplar Ridge school house. Sunday school is being held at a preaching service since that time.

First Baptist Church, Rev. L. E. Brough, pastor, announced that St. N. E. Services on Sunday conducted by the pastor. Morning subject, "Religious work among the soldiers." Being the pastor's monthly missionary address. Sunday school at 12 o'clock sharp. Evening subject, "The Gospel of Consolation." The second of the series on the Gospel according to Christ. You are welcome.

The Ladies of the Baptist church will meet at the home of Mrs. E. Greig, 6th street N.E., this afternoon, March 24th, to sew for Red Cross. All ladies of the church are urged to be present.

The Women's Club of Red Deer will hold a special meeting and at home in the I.O.O.F. Hall on Tuesday, April 3rd, from 3 to 5 p.m. The afternoon, to which all the women supporters of Mr. Michener throughout the district are very cordially invited.

Wilson May Declare State of War Within 48 Hours

WASHINGTON, March 19.—President Wilson is expected within the next 48 hours to indicate definitely that he believes a virtual state of war exists between the United States and Germany.

WASHINGTON, March 19.—News from the bank of Montreal that 45 men, some of them Americans, had been drowned when the American merchantman Vigilance was sunk without warning by a German submarine, added, if possible, to the already grave view of the situation held here as a result of the destruction of the Vigilance in the Gulf of Mexico and the City of Memphis.

Military Notes

F. Ross, who left Red Deer in a University draft for the Princess Pats, has received his commission on the field.

A. E. Gibson, formerly on the staff of the Bank of Montreal, was sent back from the front to England suffering from shell shock, is now back with his regiment, the Royal Irish Rifles.

Pte. Frank Hurley, who enlisted with the 137th Battalion at Calgary and was invalided home from England, is visiting friends in Red Deer. He is on sick leave, having recently worked for Hepworth & Trindle.

Pte. Woods, formerly of the Bank of Commerce staff at Red Deer, and who served at the front with the Princess Pats, was up from Oden Monday last week on a trip to friends at Sylvan Lake.

J. A. Dielck received word recently that his nephew, Corp. S. A. Fraser, of Winnipeg, had won a military medal for conspicuous bravery. Corp. Fraser visited his uncle in Red Deer Christmas 1915, before enlisting, and will be remembered by many in the city.

Pte. C. Armstrong, of Red Deer, who was reported seriously ill last week, is now reported as having died. Anyone who can give any information about this man, regarding what battalion he enlisted with or any other news will kindly communicate with "The News," as we have enquiries regarding him.

Pte. G. F. Atkins, 10th Battalion, formerly of the 80th, who left Red Deer some months ago, wishes to see the ladies of Red Deer and the Red Cross committee for parcels received at Christmas. Pte. Atkins has been in the trenches for some time, and says there is nothing like this. Three cheers for the 89th boys!

L. Clutterbuck writes his mother from the Machine Gun Base Department, that he has been given good conduct and long service stripes for being in the army over two years, and having nothing at all but a good record for his Red Deer boys to their right.

Pte. Wm. Patterson, who enlisted with Capt. A. R. Gibson in the 63rd, and was subsequently transferred to the 10th, was back in Red Deer last week. He was struck with shrapnel in the main drive in the Corrolette region, peels passing through his right leg and his right hand. His right finger is out of business, and he has been invalided home. It will be some time before he is fully recovered. He formerly worked for Mr. A. Clutterbuck.

Springvale.

The annual meeting of the Clearview Sabbath School was held on Tuesday evening of last week. The teachers and officers showed much interest in the work of the Sabbath School. Following are the officers elected for the year:

Supt.—Mr. Chris. White.
Asst.-Supt.—Mr. B. C. Trimble.
Secy-Treas.—Mr. J. M. Rodgers.
Organist—Miss Beatrice White.

Mrs. (Rev.) Finlay entertained at a thimble tea on Thursday afternoon last. The ladies were highly pleased with the reward for the best made T. bandage.

Misses Lillian Bayntin, Mary Abbott and Eva McIntosh assisted the hostess.

The ladies organized a "Ladies Aid Society" electing the following officers: Pres. Mrs. Jas. Spiers; Vice-Pres. Mrs. Finlay; Secy-Treas. Mrs. B. C. Trimble.

Mr. and Mrs. Jarvis have moved into their new home at Springvale. We welcome them to the community.

The Pastor, Rev. R. E. Finlay, will hold services next Sabbath as follows: Clearview, 11 a.m.; Springvale, 3 p.m.; Horn Hill, 5 p.m.

ALLIES TAKE NEARLY SIXTY TOWNS.

British and French Continue their Pursuit of Germans

In Monday's Operations British Gain Ground Extending From Two to Eight Miles in Depth—French Forces Penetrate More Than Fifteen Miles Beyond German Offensive Started.

LONDON, March 19.—The British advance is still being pushed rapidly, further large gains, including forty more villages taken, being recorded in the official report from British headquarters in France tonight.

"The pursuit of the enemy," says the report, "continues today, our cavalry and advance guard driving back the enemy's rear guards. The ground gained extends for a depth of from two to eight miles, and forty villages have fallen into our hands."

"The enemy raided our trenches early this morning in the neighborhood of Loos, a 1 mi. northwest of Ypres. A few of our men are missing. Our airplanes did much valuable work yesterday in co-operation with our infantry. Troops were engaged successfully with machine guns, and bombs were dropped on a number of places behind the enemy lines. In air fighting one German machine was destroyed, and one was driven down. Two of our airplanes are missing."

"Today about twenty additional villages and small towns were liberated. The enemy before their retirement devastated the country. Fruit trees were cut or torn down; fields were sown with mines which had open-works, numerous villages were completely burned. The inhabitants, without shelter or sustenance, were fed by our troops. Roads of communication were cut at several points, and all bridges were destroyed."

"On the left bank of the Meuse, the enemy before their retirement devastated the country. Fruit trees were cut or torn down; fields were sown with mines which had open-works, numerous villages were completely burned. The inhabitants, without shelter or sustenance, were fed by our troops. Roads of communication were cut at several points, and all bridges were destroyed."

"The fighting continues." PARIS, March 19.—The French troops have occupied about twenty additional villages and small towns in their advance on the retreating Germans. They have gone beyond Ham, on the Somme River, and Chauny, on the Oise, which brings them appreciably nearer to the St. Quentin-Loon line.

NOT AS CONQUERORS BUT AS LIBERATORS

Maude Issues Proclamation to the People of Bagdad.

HAVE TRADED TOGETHER 200 YEARS.

LONDON, March 18.—Major-General Maude, commander of the British forces which recently occupied Bagdad, issued a proclamation to the people of the city, declaring that his armies have not come as conquerors, but as liberators.

"Since the days of the Halaheh," says the proclamation, "your city and your lands have been subject to the tyranny of strangers, your villages have fallen into ruins, and your gardens have sunk in desolation. Your lands have been given to the enemy, and your people have been carried off into wars not of your seeking; your wealth has been plundered, and your men and women have been scattered in distant places."

"Since the days of Midhat the Turks have talked of reforms. Yet to-day the land is a desert, and the people are in misery. The British and Bagdad merchants traded with profit and in mutual friendship for 200 years, while the Germans and Turks have despoiled them of their property and have made Bagdad a centre of power from which to assail the power of Great Britain and her allies in Persia and Arabia. It adds insult to injury that the British government cannot risk that being done in Bagdad again. It announces that the Arabs have expelled the Turks and Germans and proclaimed Hussein Ben Ali king of Hejaz, Arabia."

W. Beaumont goes Farming

Mr. Wright Beaumont, who has been the chief editor of the News for over a year, and for several years previous on the Advocate, left yesterday with a carload of stock and effects to go farming near Edmonton, where Mrs. Beaumont was brought up. Mr. Beaumont was raised on an old country farm, and is going back to his old home. He has been a most faithful and dependable member of the staff, ever ready to help things out, while his personal intercourse with a rest of us has been of the happiest nature. He surely deserves all the success coming to him, and will be a valuable factor in building up the new edition in Alberta. He will be missed in the city as he was a member of the Board of the Sons of England, and a member of the C.O.F. We wish him success in his new field of labor.

Arrangements are being made through the co-operation of the Dominion and Provincial Governments to secure farm labor from the United States to supply the demand, so as to enable the farmers to pursue cultivation the largest possible acreage. \$40 per month will be the basis wage. Any farmers wishing men kindly communicate with Mr. or Mrs. Department of Agriculture, Edmonton, at your earliest convenience.

Yours faithfully,
E. MCINTENER.

MARRIED

The Advocate and Mr. Hillocks

At the Conservative Rally a week ago Saturday night Editor Galbraith poked his head through the door near the platform when Mr. Michener was about half way through his remarks at the meeting and on Mr. Michener asking him to come in he withdrew and came in the hall at the other door back of the meeting and immediately started to write furiously. At the close of the address, the chairman, Mr. Payne, asked Mr. Galbraith to withdraw as this was a purely Conservative gathering. Mr. Galbraith said he was not the chairman, Mr. Payne, asked him to attend, but withdrew. He then forwarded a message to the Advocate regarding the meeting, and followed this by publishing the message back into the Advocate in vain attempt to make capital against Mr. Michener.

He wound up his column article by saying: "Mr. Hillocks' uncompromising statement 'Somebody is lying' is a graver matter, and needs clearing up."

Well, for two weeks the Advocate said Mr. Hillocks made a personal reference to the Editor of the News, Mr. Hillocks, in his letter to the News, positively denies that he made any reference to Mr. Michener. That Michener, No. 1 to any fair minded man, but the editor of the Advocate passes lightly over it.

Mr. Hillocks now says Mr. Hillocks claims he did not give out any interview for publication in the Advocate or any other paper.

We believe Mr. Michener, and we believe Mr. Hillocks. But as we have proved the Advocate absolutely wrong in one instance, we believe it is wrong in the second instance, the "Albertan" and columns of backwash notwithstanding.

U.F.A. Edwell Local Union No. 53.

The fortnightly meeting of this Local Union was held at the Schoolhouse on Wednesday, March 14th, 8 p.m., under the chairmanship of the President, Mr. F. Ellis. Notwithstanding the untimely weather, a number of members and other turned out, and Mr. C. H. Conner, of Hill End, is to be congratulated on his loyalty with him so far to put in an appearance, and his doing so was much appreciated.

After the formal business, quite a lot of correspondence was dealt with. Among others was a communication from Mr. W. Farby, the Director for Red Deer constituency, asking Mr. Farby to co-operate with him. It was moved, seconded and carried that the Secretary do Mr. Farby's bidding. This would be possible for him to attend one of our meetings, in order to increase the interest in the working of the U.F.A. (not that enthusiasm lacking here); also that Mr. Farby be invited to attend if possible, with a view of interesting the ladies in the formation of a U.F.A. This is quite feasible, as the district covered by this Local is an extensive one, taking in Edwell, Willowdale and Hill End.

Several members paid in their dues, and the Secretary reminds members that a return of dues must be made on the last day of March, and would be glad if they will note this.

The Secretary called for orders for formalite, which has already been ordered, and members will oblige by sending in their requirements at once and get in the ground for the Secretary then contributed a paper on military training in Canada and elsewhere, which was listened to with interest, and a hearty vote of thanks was passed to him at the close.

The meeting then adjourned to meet at Hill End on March 14th, in the Schoolhouse at 8 p.m.

Notice

Hepworth & Trimble find that bottles are not being returned, and they request customers to be good enough to return all bottles in their possession, either giving them to the milk-man or sending them direct to the Creamery.

As this is quite a serious matter, causing considerable extra expense in new bottles, Hepworth & Trimble are sorry to have to announce that on and after April 1st they will be obliged to charge for bottles unless an empty bottle accompanies the order; whether milk is procured from the Creamery or the milkman.

Customers will therefore kindly remember not to send children without bottles when wanting milk after April 1st.

British 30 Miles Past Bagdad; Russians Capture Kermanshah

London, March 14.—The British forces operating against the Turks along the Tigris River at last reports had reached a point 30 miles above Bagdad, and were still pursuing the Turks. Constantinople has admitted the evacuation by the Ottoman troops of Bagdad and the retreat of the Turks toward Samarra, 75 miles to the north.

Some 90 miles east of Samarra, in Persia, the Russians are reported to have captured the important town of Kermanshah in their drive westward in an endeavor to form a junction with the British troops operating in Mesopotamia. The capture of Kermanshah would show that the Russians, in the short time since they began their offensive, have driven back the Turks from Hamadan to a point eighty miles south-west of that town.

A report from Washington, credited to a foreign diplomat, says that the Russians had captured 15,000 Turks out of Bagdad.

SLAVERS CLAIM TO HAVE

GOT 15,000 TURKS
Washington, March 14th.—A foreign diplomat, establishing here has received advice that the Russian army in northern Persia has had a great victory, capturing 15,000 Turks, who were cut off from Bagdad. No details of the affair have been received in Washington.

Every indication points to the rapid collapse of the Turkish military power on the eastern and southern frontiers of the sultan's empire. The capture of these 15,000 men, who are described as having been cut off from Bagdad, suggests that occupation of Bagdad, by the British forces under General Maude, were more important than was at first supposed, and indicates that the junction of the Russian armies in Persia with the rapidly advancing British expedition in the Tigris valley has either been accomplished or the Allied forces are at least near enough together to co-operate successfully against the demoralized Turks.

Belgian Frontier is Closed by the Huns

Amsterdam, March 14, via London March 15.—The closing of the Belgian frontier is connected, according to the Maatschappij van Transport of German troops. It is believed it will remain closed for six weeks, during which time no one is allowed to cross. The report claims that all postal traffic with Belgium has been stopped.

Bapaume Evacuated

London, March 15.—The belief now exists in London that the Germans have already evacuated Bapaume and are falling back to the Hindenburg line—Lenn St. Quentin. Their retreat is being hastened by artillery pursuit.

An Amsterdam dispatch to the Times says: "The news published here from London of the impending fall of Bapaume lends significance to the overtly inspired German advance of what is believed as the strategical shortening of the western front in articles in the Berliner Tageblatt and Berlin Zeitung Amnuttig. They seem designed to prepare the German public for a further backward movement and to discount in advance the loss of Bapaume and other positions."

Alberta Farmers' Live Stock Bulletin

Cattle. Receipts of beef and stocker cattle were light. Good beef steers are in demand at \$9.00, but they must be well finished to bring this. We sold one car of choice steers at this price and some light fat steers at \$8.75. Light fat cattle are selling at about \$7.00. Choice heavy heifers are worth from \$8.00 to \$8.50. Good cows \$7.00. Top bulls and oxen at \$6.50.

Hogs. Hogs at the beginning of the week and until Friday, realized \$14.75, but owing to a drop in the Eastern markets, the price today fell to \$13.50, and most of our hogs today were sold at that price. Packers are still quoting a 5c. piggy, and a 2c. out on lights under 150 lbs.

What Farmers Recommend

Confiscation of Overages by Government for Educational Purposes.

At a joint meeting of the Directors of the Alberta Farmers' Co-operative Elevator Company, Ltd., and the executive of the United Farmers of Alberta, the following questions were discussed:

1. Mixing of grain in hospital elevators.
2. Sample Market.
3. Overages in Country and Terminal Elevators.

The mixing of grain in hospital elevators, it was unanimously agreed that an application should be made to the Grain Commission for amendments to the Grain Act legalizing the mixing of grain permitting hospital elevators to both take in and ship out grain of the grade of No. 3 Northern and under.

In regard to the sample market, opinions were expressed that without "free wheat" it would be very limited and of little advantage to the farmer.

Overages. That we recommend to the Canadian Council of Agriculture that an amendment be secured to the Canada Grain Act providing that all overages over 1 per cent in the terminal and country elevators shall be confiscated by the Dominion Government, and further, that the commutation be made that the proceeds of such overages shall be held in trust by the Dominion Government to be used in the West-Province for the advancement of agricultural education in the West in the best possible manner that may be decided upon after complete investigation has been made into the question. Further recommendations were made as to the proper procedure in order to secure adequate supervision, inspection, etc., but the detail will be easily worked out, providing the matter is taken in hand by the Government.

Letters from the Front

Philip Galbraith writes February 19th from Canadian Casualty Clearing Depot, Hastings, England, that his shoulder is O.K., and only gives him a twinge once in a long while. "A sign I saw down town the other day read this way: Very choice new-laid eggs 1s. 10d. for six. You can tell by this what eggs cost here. The eggs we got to eat (when we do get any) are very small and I believe they come from Egypt. We see all different kinds of sugar these days—white, yellow, brown and black, and the prices have great difficulty in getting any at all. That's one advantage of being in the army: you never need to worry about your grub because there's no use. If you get it you get it and if you don't, you don't. It's very simple. The break-up takes place this week so we will have quite a busy time. I ought to get away in a couple of weeks.

L.I.D. 401

A meeting of the Council of L.I.D. 401 The House at Bookley, 21st Alberta Res. Batt., Seaford, Sussex, Eng. Dear Mr. Carwell.

I think I would send you a scribble to let you know how we are all getting along. We came over to England on the Olympic and had a very good and quick passage. Unfortunately we were all placed in quarantine and have just released the last man quite recently. My men have all been sent to the 21st Alberta Reserve Battalion with the exception of 316 who went to the 202nd Edmonton Battalion, so as a battalion we are broken up. Six of my officers, Capt. Corley, and Lieut. Taylor, Weir, Chisnall, Paris and Stanish, went to the 202nd Brigade and four have been warned to France and will leave in a few days. Capt. Meers who reverted to Lieutenant so as to get over and Lieut. Forbes, Law, and Roughton. Mr. Carwell, it has been a big wrench for me to be parted from my men. The Red Deer district has every reason to be proud of its splendid men it has sent over.

Never had any trouble with my men and we had no crime, and every officer and N.C.O. has played the game. When we came to Seaford we had a very kindly reception by the U.C., Major Stewart, of Calgary whom we agree is a real soldier and a gentleman. I will be detained for a few weeks settling up my battalion accounts, then I have offered to take up the story where I left off two years ago, and go over in command of a Company as a Major. There seems to be lots of Colonels in England. I have sent my hand instrument back to be stored at Munson and it is our wish that they be used by some military organization to be formed in the Red Deer district after the war. Our colors we will leave at Westminster Abbey until the war is ended.

Moved by McKinnon, seconded by Knight that the following bills be passed. Stamps, \$5.15; Western Municipal News, stationery, \$12.30; Mat Jackson, 2 scrapers, Div. 4, \$12.00; Mrs. Randall, 1 scraper, Div. 4, \$4.00; J. Davies, bridge timber, Div. 2, \$12.00.

Moved by McKinnon, seconded by Wheatley that the following bills be passed for diversions in road in Div. No. 5 be paid. C. Pettit, \$10 per acre; John Brebner, \$10 per acre; J. M. Falls, \$10 per acre; A. J. Dureh, \$10 per acre; Wm. Robb, \$10 per acre; David Evans, \$10 per acre.

Moved by Randall, seconded by McKinnon that the following resolution be passed.

Resolved that the Council of L.I.D. 401 ask for a survey of the following diversions.

A road east and west through the centre of sections 8 and 9 in 40-5-5. A road through section 8 in 39-5-5, north of and adjoining the C.P.R. right of way.

Moved by Knight, seconded by McKinnon that Wheatley be given permission to buy a cable to pull stumps on the road.

Moved by Sande, seconded by McKinnon that meeting adjourn until Saturday, May 26th; meeting to be held in McKinnon Bros. Hall at Lethbridge.

Waskasoo Red Cross

The Waskasoo Red Cross Auxiliary had a very enjoyable meeting at the home of Mr. and Mrs. McCall on Thursday, March 8th. Mrs. Wright and Miss K. Eyre were present. The usual business meeting was held and it was decided that, as the work for the Calgary Red Cross was nearly finished, they would hand over whatever money was made to Red Deer and to get work from the Red Cross room. Mrs. Hicks was voted to attend the meeting to be held in Red Deer on Monday, March 12th, and to pay the \$2 membership fee and to hand over fifty dollars to the Red Deer Branch of the Red Cross Society. An invitation was sent over from Mrs. Plummer, Lady Nook, inviting the Waskasoo Ladies to take some sewing over for the Red Cross, and start a sewing circle for "Shady Nook." The Waskasoo Ladies are looking forward to a very enjoyable afternoon.

The School Board.

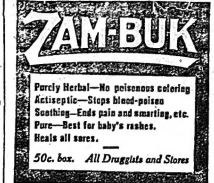

The regular monthly meeting of the School Board was held on March 14th. The members present were: Messrs Payne (chairman), R. L. Gaetz, F. S. Simpson, W. J. Stephenson, and Secretary Munro.

Minutes of previous meeting were read and confirmed.

The Secretary read a letter from the Superintendent of Schools, Mr. J. B. L. Casade, in which he requested that the board order the payment of the salary of the Superintendent of Schools, Mr. J. B. L. Casade, for the month of March.

The following accounts were passed by the finance committee and ordered to be paid:—E. Haste \$5.10, Day Hardware Co. \$7.25, M. A. Munro \$1.10, Cushing Bros. \$1.20, Gaetz-Cornett Co. \$10.15, Wright, Hardware Co. \$23.45, Hewson & Sons \$112.35, A. Fyfe \$8.75, D. A. McGill \$83.70, A. G. Ballock \$75.

The Secretary reported a payment from the city, and that cheques had been issued for February salaries. Several matters pertaining to the work of the Schools were discussed, which will be attended to in due course.

95 per cent of Illness due to One Cause.

Physicians agree that 95 per cent. of all illness is possible only because of accumulated waste in the Colon (Lower Intestine).

In fact, the most eminent of the World's Specialists claim that if the Colon were always kept clean the average life of humanity would be doubled.

There is now a new and simple method of cleaning the Colon of this poisonous waste, and keeping it clean, pure and healthy. Of curing Constipation and the depressing bilious attacks which make us dull, blue and inert—without any effort of action.

That method is Internal Bathing with warm water, administered by the "J. B. L. Casade," apply termed "Nature's Cure."

Over 500,000 people are now enthusiastically using this modern warm water cure, and Physicians are prescribing it everywhere. It is making sick folk well and well folks better, stronger, more ambitious, energetic and confident.

This letter from Mr. A. Maclean, of Conger Lumber Co., Parry Sound, Ont. a sufferer for 35 years from Constipation, is very valuable.

Parry Sound, Ont. Dr. Chas. A. Tyrrell, Toronto: I Dear Doctor—I have used the J. B. L. Casade since I received it 21 days ago with wonderful results. Before I started this treatment I could not pass one day without taking medicines; since have not taken one dose, and feel so much better in every way.

I have been troubled with Constipation for the past 35 or 40 years, and, of course, at my age cannot expect a speedy cure, as I am now in my 75th year, but the relief it has already given me is a promise of the good it will do for me.

I think a good many more will come from Parry Sound as the treatment becomes known. I cannot speak too highly of the Casade treatment, and will surely talk much about it.

Yours gratefully, M. A. Maclean.

The "J. B. L. Casade" is now being explained and shown at The Gaetz-Cornett Drug & Book Co., Ltd., "The Rexall Store," and they will be glad to explain its action and uses to you in detail.

If you cannot call, you should write today to Chas. A. Tyrrell, M. D., 163 College street, Toronto, for booklet, "Why Man of Today Is Only 50 Per Cent. Efficient."

REVOLUTION IN RUSSIA

DUMA NOW IN CONTROL

MINISTERS ALL IN JAIL

Move Means More Energy in Prosecuting the War.

LONDON, March 15.—A successful revolution has taken place in Russia. The reactionary party has just been overthrown.

WENT OVER IN BODY
Reports from Petrograd state that the duma, backed by the army, has succeeded in overthrowing the government completely. The revolution centred in Petrograd was successful. Prominent reactionaries, including former Premier Sturmer and M. Prottopoff, minister of the interior, have been imprisoned. The government is now in the hands of a committee of safety.

The reactionaries at Petrograd and Moscow went over in a body to the revolutionaries.

PRO-GERMANS IN JAIL
The revolution was comparatively bloodless. Some fighting took place on the first day, during which bridges in Petrograd were blown up in order to isolate certain sections of the city. As far as is known there are no prominent persons who have been imprisoned.

HE LOOMS LARGE
Grand Duke Nicholas, idol of the Russian army and ranked as Russia's master strategist, looms up in the empire which has just witnessed a successful and almost bloodless revolution and the abdication of its emperor.

The relinquishment of the throne by Nicholas II, an autocrat, deprived him of his rank as commander-in-chief of the Russian armies. The heir to the throne is an infant and the Duke Michael, named as regent, while a soldier of repute, is not of commanding military experience.

IN TWO PLACES
The revolution was as successful in the east as in the west. Complete control of the government of Russia to the duma, backed by the army and what is termed the "push" of the war party is now in power. The revolution, which evidently was carefully prepared, broke out simultaneously in Petrograd and Moscow. The reactionaries which obeyed the instructions of the revolutionaries immediately took possession of the two cities.

After receiving word of the revolution, Emperor Nicholas returned to the palace, where he arrived yesterday.

CZAR IS WARNED
PETROGRAD, March 15.—After three days of battle between troops supporting it and those opposed to it, a revolution was successfully effected in Petrograd. The casualties probably did not exceed 500. It is reported that Prottopoff, minister of the interior, has been killed. Emperor Nicholas has been warned that the fate of his dynasty depended on acquiescence. The royal palace was besieged by revolutionary troops. The emperor is at the front.

AFTER THE EMPEROR
LONDON, March 16.—A Reuter dispatch from Petrograd says that the emperor is expected to arrive at the Pskov-Selo Palace and that several regiments with artillery are hastening to the same place.

GRAND DUKE ARRIVES
LONDON, March 16.—The Grand Duke Nicholas is reported to have reached the Russian capital. The dispatch says that he will probably take command of the troops.

ENDORSE THE MOVEMENT
PETROGRAD, March 16.—The council of nobility called in Petrograd has endorsed the new revolutionary government.

ESTABLISH RELATIONS
LONDON, March 16.—A Petrograd dispatch to Reuter's Telegram says that on Wednesday night, the British and French ambassadors established official business relations with the executive committee of the duma.

NO CONFIRMATION
LONDON, March 16.—There is no confirmation of the report that the Premier Sturmer and Minister of the Interior Prottopoff of Russia have been killed, and the indications are to the contrary. Petrograd dispatches under Wednesday's date say the two ministers and other prominent men who were arrested by the revolutionaries were comfortably housed in the Tauris palace. The Petrograd correspondent of the Times saw them there on Wednesday. M. Sturmer was seen with papers at his desk, and M. Prottopoff was lying on a sofa, a physical wreck.

DO YOU SNEEZE.
Sneezing from very remote times has been regarded with superstition. Our forefathers went to bed again if they sneezed while putting on their shoes. A sneeze to the right was deemed lucky; to the left, of evil portents. To sneeze near a burial place was very unlucky.

Tradition has it that sneezing was first a fatal sign—every human being sneezed but once and then died. But Jacob petitioned the Creator to remove the sneezing ban and succeeded. Thence arose the once usual custom of saluting a sneezer with "God bless you!" or "May you live long!" The custom still obtains in some parts of Europe.

In England not only was a sneezer blessed, but friends raised their hats to him as well. In an old book, "The Code of Custom," it is directed that "if his lordship sneezes you are not to bawl out 'God bless you!' but bow to him handsomely." All over the world the sneeze was recognized. Whole nations were under orders to make exclamations when their king sneezed.

Sneezing was believed to be a sure cure for hiccough and was also looked upon as a sign of sanity. If anything and universal belief goes for anything it is good to sneeze.

Penhold
The Red Cross sewing meeting will be held at the home of Mrs. Hugh McLaughlin on Thursday next. Mrs. Dixon will kindly take the Penhold ladies over in her sleigh.

The last meeting held at the home of Mrs. Barton was a great success. The farmers were holding a meeting the same day, and Mrs. Barton served tea to farmers as well as the ladies, so she was able to hand the Secretary-Treasurer the sum of \$5.10.

The Secretary wishes to acknowledge the sum of \$33.00 from the people at Antler Hill. Also the following ladies: Mrs. J. J. Carver, \$10.00; F. Graham, Edwell, \$10.00; F. E. Ellis, Edwell, \$5.00; L. Bourne, Penhold, 2 loaves of oats, \$26.00.

Figures compiled by the Department of Labor show that Canada is faring better than most nations in the matter of the cost of living.

Since the war began the price of food in the Dominion has gone up about 75 per cent. In Britain, however, prices have risen about 87 per cent; in Germany about 250 per cent; in Austria 800 per cent; in Norway, Denmark and Sweden about 600 per cent; in the United States about 90 per cent.

The moral of the situation appears to be that the present extraordinary conditions are world wide in their scope and influence, and are the inevitable outcome of tens of millions of people being taken from the work of production and engaged in work of destruction. Production and still more production would seem to be the only solution of the situation. The Government should be backed to the limit in its campaign to that end.

THE FESTIVE CHINOOK

We take the following from the Toronto News:

"The Red Deer News says: 'It does really take some coal to keep up the heat in this Province of Alberta.' An admission at last. We have always understood that in the summer the sun shines day and night while in the winter the temperature is like that of the Riviera owing to the prevalence of Chinook winds."

Well spoken, oh News. Everyone who returns from Ontario is glad to get back to sunny Alberta, where the sun always shines (when it isn't cloudy). And as to temperature this Red Deer district is a banana belt without the chinook which only blows around Maledo. Speaking of chinooks a bald headed man from Maledo, where he had his hair blown off four successive years, reports the chinook so strong some time ago that he blew a cat and a wall and held it there until it starved to death.

SUPPORT THE WAR LOAN

The Dominion's new war loan will test the determination of the Canadian people to see the war through to the end. If this loan is successful as its predecessors, notice will be served upon the world, and particularly upon Germany, that there is no wavering of purpose among Canadians to fight on until democracy has been vindicated and autocracy crushed.

The Calgary News Telegram wants to know why Hon. Duncan Marshall does not hand out one of the agricultural schools to Calgary. The idea. How could the News Telegram in its guileless innocence think of such a thing? Every agricultural school so far has been placed in a Liberal constituency, and if we are not mistaken, the new ones will be placed in Liberal constituencies also. Calgary has no chance.

Champion Bull at Fancy Price Now in Alberta

FRANK COLLIUTT PAYS \$11,900 FOR HERFORD TWO-YEAR-OLD IN CHICAGO

Edmonton, March 15.—A high tribute was paid to Frank Colliutt, the Herford stockman of Calgary, by Hon. Duncan Marshall yesterday afternoon when he announced on the floor of the House that Mr. Colliutt had just purchased, in open auction, a champion two-year-old Herford bull for \$11,900. The bull was the grand champion at the Chicago show and is perhaps the finest animal on the North American continent.

Mr. Marshall declared that the action of Mr. Colliutt, who owns the largest herd of Herfords in the Dominion, was an event in the livestock history of Canada. No such price had ever been paid for any bull in Canada except in one case when \$15,000 was paid in 1876 for a purebred shorthorn bull. Mr. Colliutt deserved credit for both courage and judgment and the province would reap marked benefits from his action. It would mean true and marked development, and it would not only make money for Mr. Colliutt but also mean a great forward step for livestock history in the province.

Mr. Colliutt, he said, was a man who had developed himself in this line of industry from a range rider to the greatest livestock breeder in Alberta. He deserved honorable mention for what he had done for Alberta in bringing in this splendid animal.

In addition to the young bull Mr. Colliutt paid \$1,025 for a cow with a calf at foot, and \$1,000 for a two-year-old heifer.

George Hoadley (Okotoks) joined the minister of agriculture in commending the action of Mr. Colliutt.

The Supreme Court The Gopher Trouble

The appellate division of the Supreme Court of Alberta—Judge Ives, Stuart, Beck and Walsh sitting—handed out judgment in the Arlington hotel case, dismissing the appeal of Charron Orton from the decision of Chief Justice Harvey in favor of Mrs. McCauley and Mrs. Pennington, with costs. The plaintiffs claimed that the defendant's liquor license was issued by the institution of the Alberta Liquor Act broke their lease and agreement with defendants which claim the court did not sustain. Mr. McCauley, Edmonton for plaintiffs Charron & Orton; Mr. Ives and Mr. Biegar, K.C., for defendants Mrs. McCauley and Mrs. Pennington.

The Court of Appeal recently gave judgment for the appellant, T. H. McLaughlin, in the case of McLaughlin v. Campbell, action over purchase of some land in North Red Deer. McLaughlin had made two payments, and proffered the third and final payment, but could get no title. Action was brought after 18 months for specific performance, but the defendant Campbell claimed that he was on active service and entitled to the benefit of the Military Service Act. Plaintiff claimed that defendant, not being a resident of Alberta, was not entitled to the benefit of the act. Judge Mahaffy adjourned the application to give defendant time to produce the title. When the application came up again, defendant produced title, and Judge Mahaffy dismissed McLaughlin's claim, ordered specific performance, and directed the payment by McLaughlin into court of the balance of the purchase price. McLaughlin subsequently made application to vary the order and to have the case come up for trial which was refused. McLaughlin thereupon appealed the Judge's decision, and the Court of Appeal held that the length of time which elapsed before title could be procured was unreasonable, directed the return to McLaughlin of the payments he had made, directed the defendant Campbell to pay costs of all the proceedings and gave McLaughlin a lien on the property for the money he had paid. Mr. Quigley and Mr. Ford, K.C., for plaintiff McLaughlin; Ford and Graham for defendant Campbell.

Edna Lenore and Danny Whitlock will put on some Vernon Caskie novelties, and there will be some capital solo parts.

PAINLEVE: PRODIGY WHO SAVED VERDUN

Chemist, Scientist and Politician as Marvel of France—Invented Mysterious Explosive

Paul Painleve, a French chemist, was the real cause of the Germans being driven out of the outer forts of Verdun. He it was who invented the mysterious explosive—against which their field fortifications went down and before whose onslaught the Germans had to retire in a week more than they advanced in eight months of the hardest fighting the world has ever seen.

As a chemist Painleve lectured before eager classes of the Sorbonne. According to The London Chronicle, his prodigious intellectual powers were manifest before he reached his teens.

Prodigy Discovered
His teacher in this lay school at Paris decided that a prodigy had arrived. Paul was seen idling while the rest of his class had to work, yet knew his lessons perfectly. The teacher went to the director, who declared that the boy could be examined for promotion into the next higher class. In due time the same kind of report of Paul was again handed in. The process was continued until Paul was in peril of promotion out of the school altogether. At last the director was convinced he had a marvel of a mind to deal with. Paul was discovered. A special purse was even procured from some sources. It is affirmed that in his eleventh year he could have taken a bachelor's degree at the university.

Leader of Men
M. Briand is quoted as having declared that Painleve was a born leader of men with an unparalleled capacity for administration. Clemenceau pronounced him an inspired baster. The effectiveness of Painleve in the laboratory was based upon qualities totally different from those which won him success in politics. He had a passion for order, systematic harmony, method in his searches. "You are an old maid!" the late Henri Poincare was alleged to have said to him. "Minerva was an old maid," he replied with his characteristic smile. "She came full grown from the head of Jove and was never young." Poincare, himself the supreme mathematician of his time, regarded of the universal Painleve, who took all science for his province.

His Political Triumph
Side by side with the story that came to him as a member of the Academy of Sciences, marched the story of his political triumph. He would hold a class spellbound at the Sorbonne with the delicacy of his researches into the theory of light heat and sound, and repair at night to a packed hall for the sake of haranguing discontented proletarians. "Do you not think," asked Poincare after a riot in which his friend got blown on the nose, "that you should abandon your absurd politics?" "That is all very fine for you," retorted Painleve, "you can go shooting in the forest of Rambouillet whenever you please; but I am poor and my only recreation is politics."

Changed Shirts During Charge—Much Hun Booty
An Englishman writes: Splendid work, even in the capture of prisoners, was done by the signallers, many of whom went forward with the first wave. One of them found himself all alone and wounded at the mouth of a crowded German dugout. By way of occupation he told the men they were his prisoners, and then, using the telephone, he strapped his body, called for assistance and guides for the prisoners.

The whole battle—this soldier's battle—was marked by unnumbered episodes of heroism, gallantry, dash and coolness. Some men were too cool. They stopped to light German casualties. Others mistook the enemy's helmets—which they were hilariously for the rest of the day. One man discovered an ordnance store, deliberately changed his damp and muddy shirt for a clean German garment from the packets.

ZEPPES IN MIDLANDS
Wonderful Escapes of Villages From Heavy Bombing
A Zeppelin which visited districts in the North Midlands about 1.30 a.m. dropped at least a dozen bombs in a small area, which, however, escaped serious damage. In one place where a number of bombs fell there was an incendiary bomb, fell in a brick yard in the midst of rows of buildings and the Zeppelin was splashed with molten metal, but no fire occurred.

LYDD-GEORGE'S SECOND

Brilliant Career of Devonport as Manager of London's Port

Lord Devonport's close association with Lloyd-George pointed to the certainty that he could if he chose occupy a high position in any Government that contained the brilliant Welshman. For years he was a close aide by side. When Lloyd-George was President of the Board of Trade, Lord Devonport, then Lord Chamberlain, was his Parliamentary Secretary. It is an open secret that it fell to the lot of the secretary to put into practical business shape the brilliant imaginings of his chief. So well did he perform this difficult task that he was created a baronet, and was put in charge of the work of organizing what was known as the Port of London Authority.

Up to 1909 the control of the Port of London, with its forty miles of quays and its docks occupying many thousands of acres, was divided among many different corporations, public and private. These bodies worked independently, and sometimes at cross-purposes, with the result that the river was not properly dredged and the re-export trade was seriously interfered with.

A Royal Commission having decided that all authority should be centralized in one body, an Act of Parliament was passed and the Port of London Authority was created.

The Port of London Authority, since the port rates and dock charges, has been the river's greatest benefactor. Improvements and controls the Thames from its mouth to Teddington Lock. There are various delegates and representatives on this board, but Lord Devonport as chairman was the virtual dictator of its policy for the next seven years.

WOUNDS AND INFECTION

Fresh Air a Good Healer For Shell Wounds

The professional healer, like the professional fighter, has found that many of the highest cures are to be found in the open air. In South Africa he has had to learn in Flanders. Wounds seldom proved troublesome in the Boer War, because the South African wind was almost virgin; but in Belgium and France, where the land has been cultivated for centuries, the gentle germ is always ready to enter the smallest wound and bring about tetanus and other diseases.

At first surgeons were in despair, for that much-valued antiseptic were of no avail. It required long search and experiment before methods of overcoming new difficulties could be discovered. Then, owing to the high-culture of the modern medical examination and to communicate immediately with him regarding same.

British Battleship Drill

M. R. George McLaren Brown, European manager of the Canadian Pacific Railway in London, has forwarded the accompanying pictures, which allow those of us who are safe at home a glimpse of the men who are keeping us safe at the risk of their own lives. The first illustration portrays military drill aboard a British battleship in the Mediterranean Sea, and the second shows a number of Jack Tars loading a naval quick-firing gun.

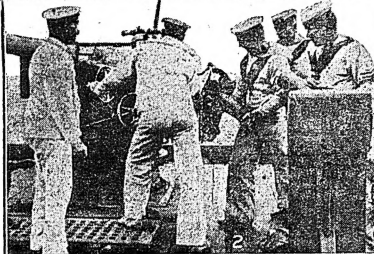

Undoubtedly the greatest force engaged in the present conflict is the British navy. Ever since the outbreak of war it has guarded the motherland and the dominions jealously as a tigress protects her young. Silently the navy moves about the waters of the deep in search of enemies that might be out on errands of destruction. Seldom they appear in sight, but when they do appear a few barbs from their mouth terrifies and chases them away.

For the deck, it was their field of fame. And the ocean was their grave.

Thus wrote Thomas Campbell of the old-time British marines. It is true that the ocean is to the sons of Britain as familiar a field of activity as the land is to the sons of other nations. Lord Byron represented the thought of the average Britisher when he wrote:

And I have loved, thee, Ocean and my joy
Of youthful sports was on thy breast to be
Borne, like thy bubbles, onward;
From a boy I wanton'd with thy breakers—thy wave
Was a delight; and if the fresh'ning sea
Made them a terror—'twas a pleasing fear,
For I was as a child of the sea,
And trusted to thy billows far and near,
And laid my hand upon thy mane—
As I do here.

But the sons of the British Empire are amphibious creatures. They

can live, and fight, and die as well on land as on the sea. The third picture portrays British soldiers dress-

TOWNSHEND—"WHAT A MAN TO FOLLOW"

Private's Tribute to Heroic British General Who Defended Kut in Tragic Incidents

Little by little the heroic epic of the British defence of Kut under the great Townshend comes to light. A despatch rider, Private Latenser of the Seventh Hussars, since returned to England, has added incidents to the general store of knowledge. One evening Latenser was lying in his bed in Kut hospital chatting to two comrades, a sergeant and a private. Suddenly there was a great rending explosion; the hospital had been struck by a bomb from above.

"I was not touched," Latenser says, "but both the men at my bedside were killed; and for three days I was conscious of nothing but the terrible shock I had sustained. I kept feeling my head and my remaining leg; it was the only way by which I could convince myself they were still there." Thirty-one men were injured by the one bomb and eighteen of them died of their injuries.

Latenser himself is a pretty tough specimen of the British soldier, and he could never have survived the deprivations of that long siege. Among the few who survived upon whom it was necessary to perform amputation he was the sole survivor. He has waited to a very shadow when the end of the siege came, and the doctor attributed the existence in such circumstances to the clean life he must have led. One day, when he was slowly struggling back from the shock of the amputation the general came to see him.

"I know this man," he exclaimed at the first glance, "Private Latenser, sir, of the Signal Company; carried despatches." "And how are you getting on, lad?" "I told him I was all right, and he patted me on the head, saying: 'Keep on smiling, lad. And always think that when you get home there will be thousands like you, worse luck.'"

When the doctor came back he said to me: "Latenser, you are a lucky man. I've been instructed that you are to have a bottle of port wine all to yourself. It is the general's last bottle, and you must take care of it. I hardly liked to take it, but I think I had not I should never have been here to-day. But what a man to follow!"

LEADERSHIP WON V.C.

Youth and Age No Bar to Highest British Honor

A batch of Victoria Crosses was awarded to three officers and two privates in English regiments a sergeant of a Scotch regiment and a sergeant of an Irish regiment. All distinguished themselves not only by indifference to danger, but for quick thinking. In every case the winner had rallied and led troops under fire had snatched victory from defeat.

For instance, Private Robert Rider of the Middlesex, assumed command of his regiment when all the officers had been killed or wounded, led a remnant of men forward, and with the aid of a Lewis gun cleared the position. In commenting upon these and reviewing some earlier ones the New York Sun observes that among the winners was an elderly man who left a wife and nine children at home in order to serve his country, and "that glorious boy," John Travers Cornewall, who, mortally wounded, remained at his post in the Jutland battle because, as he explained shortly before he died, "the thought might be needed." We may be sure that when the roll of heroism for the war is completed no name will shine more radiantly than that of this lad.

WOMEN IN CANTEENS

Where Manual Labor For the Cause Is Honored

Miss Jennings, who has been working in a canteen for over two years, says that the work is extremely hard and a real sacrifice by women accustomed to luxurious homes and a life of ease. "Some of them," she said, "come to the canteen at midnight and work until eight o'clock in the morning. They used to work twelve hours a shift, the night shift finishing at 4 a.m., but they found it was impossible to get home at that hour, especially as so many families have given up motor cars. When there is a big rush of soldiers the work becomes a great strain."

"In the canteen it is an honor to be looked upon as a good worker. That is quite true of all the canteens I have worked in, and the women no longer hand out cups of coffee, but do the rough work of scrubbing the floors and working over the hot stoves. A professional charwoman is only engaged to scrub the kitchen floor and to scour the stove."

The dual was fought with swords after the severest conditions had been drawn up. Professor Gay flung himself on his opponent. The combat was so violent that two pairs of swords were broken in the first round. During a pause the seconds advised Senior Gay to be less ferocious, but he replied that he wanted to kill Senior Hermida. The duel was resumed, Senior Hermida remaining on the defensive. Senior Gay rushed upon him with increased fury. The defender, a very able swordsman, was able ward off the blows, and at last, weary of parrying his opponent's wild rushes, he thrust at him and pierced his throat. Senior Gay died eight hours later.

DEAF, BUT A HERO

Man Too Deaf For Trench Work, Became Stretcher-bearer

There is a man so deaf that he was unfit for work in the trenches. He was a cheerful sort and the men liked the queer things that happened when he failed to hear an order. Every one but the deaf man stood "at ease," but he took no notice. "Stand at!" shouted the colonel. The deaf man turned pale, his eyes on him. "Is it true, sir?" he asked anxiously, "that the Government have stopped the rum ration?"

During a big battle he was ordered to the clearing station just behind the front line. He spent the whole day under the numerous fire of the machine guns and the artillery between the first and second trenches and a shorter trench far advanced in the most exposed part of the ground, picking up the wounded and waiting them on to his broad back, and suggesting back with them under fire until he reached the clearing station. Then he went back into the thick of it again, placed his hands in that column of devoted company who did not hear the awful clatter of the shells, but calmly faced a silent death.

"Fala" whom he has often amused are hoping that he will get the medal he deserves.

GERMAN STRATEGY

Dummy sentinels are being used by the Germans along the Belgian frontier. Where the Germans had a soldier posted every hundred yards they have only one every thousand yards. In order to frighten away would-be smugglers and deserters, the Germans place dummy sentinels every fifty yards when night falls.

NOT USED TO IT

In a letter home A. G. Ross, a member of the British Royal Engineers in German East Africa, says: "The giraffes are causing trouble in the telegraph than any other animals, as they go about at night, run into the wires, and down they come with the wire."

BULGAR CROWN PRINCE

Boris, as crown prince of Bulgaria, took a prominent part in various negotiations with the Tzontonic military and political leaders and was even called into consultation on occasions of the All-Highest War Lord of Germany.

The municipality of Ancona, Italy, named a sea gull after Captain Frattini.

HW MUNITIONIER'S ARE PROTECTED

Engineering Science Renders Workers "Fool Proof"—Improved Devices For Guarding Life

From a London daily paper: The wonderful adaptability of the munitioniers is not the only revelation of the munition factory, for the marvelous ingenuity of the tool setters and engineers of the country has been an equally amazing discovery. In the production of shells the work is necessarily of the very finest; and on the occasion of a recent visit to a shell filling and munition factory, I witnessed the most marvellous adaptations that have been introduced to simplify the operation of the complicated machinery, and to enable unskilled women and girls to produce work of such high standard and precision as would previously have required the most expert workmanship.

One machine I saw for folding cartridge cases was entirely protected by a strong wire gauge, which rendered any trapping an absolute impossibility. Another for splitting the cartridge cases was fitted with a finger guard, or stop, which entirely prevented the fingers from coming into contact with the press.

The micrometer Superseeded The micrometer, a very delicate instrument requiring the most careful handling, has been superseded in most of the works by either simple indicator gauges or skillfully conceived tools known as "go" and "not go" gauges. By this means, which merely requires the passing of the instrument to be tested, any small cases, for instance—along a tool contrived as accurately to measure each particular portion, the slightest variation—even the thousandth part of an inch in diameter or height or any other dimension—was immediately apparent from the fact that it will or will not "go."

By this method a young girl ten years of age, where the same work done by the micrometer, the hands of a skilled man would take perhaps ten times that amount of time.

The "Danger Zone" Shields of mica, glass plate, and steel are used extensively, and in almost every instance the work upon explosives is enveloped in steel boxes or tubes. In a great many instances the possibility of an explosion occurring in these tools has been anticipated and the worker safeguarded by running steel pipes directly from the ground.

Everywhere in the "danger zone" the workers are protected by shields of mica, glass plate, and steel. It is as proud, and rightly, too, of her work in this particular section of the munition works and months in the trenches) the women's clothes are fireproof. The walls of the building where the floors are covered with thick felt, and no sound is heard from the even voices are lowered. The atmosphere of peace and general air of stillness pervades the entire region, in contrast with the din and clamor of battle that is the ultimate destination of the productions.

ROLL OF HONOR

Several thousand officers and employees of the Canadian Pacific Railway Company enlisted for active military duty with the Canadian Expeditionary Forces, and the majority of them are now in Europe, bravely battling for Canada and the Empire.

ondly we cook them every day, and
you may get them hot, or at least
warm, within twenty-four hours.
Don't forget that we are making ice
cream, wholesale and retail. Rus-
sell's Candy Store, Ross Street.

J. J. Dale returned from an ex-
tended visit to his old home in
Quebec on Thursday evening last,
after an absence of twenty-five
years. He was greatly surprised at
the change that has taken place
since he left. When he came west
the people lived in log or small
frame houses, the fences were mostly
stump fences, and the people were
mostly hard working and poor. Now
the people live in well built and
expensive dwellings, they have well
tilled farms, great quantities of fine
stock and they are more prosperous
than they ever were in their lives.
The roads are very narrow, only
being about half as wide as our
roads in Alberta, and the snow was
about two feet deep on the level.
The cold was worse than Alberta
cold, the glass giving 40 degrees be-
low zero on one occasion. Alberta
is alright, says Mr. Dale, and he is
glad to be back. There was no
sign of spring when he left the east.

Let's forget!—Thursday, March
29th, Grand Concert in St. Luke's

a time in the Superintendent's office
there.

The W.A. of St. Luke's Church
have handed over \$26 to the Red
Cross, being the proceeds of the
ten cent tea at the Parish hall on
Friday last.

Mr. Wm. Piper returned from Ed-
monton on Saturday last, having
attended the Grand Lodge of Orange-
men there, and he reports having
had a splendid time.

The following will take services at
St. Luke's church on March 25th
Cox Clark, of Calgary; April 1st,
Rev. Canon Gale, of Calgary;
April 8th, Archdeacon Dowdney.

The ladies Aid of the Methodist
church will hold a ten cent tea and

ing, Savoy scribbles, birthday
cards, flags, toys, and dolls at John
McVicar's.

The Edmonton Chess Club wish to
have some correspondence games
with some Red Deer chess players.
If there are any chess enthusiasts
there, kindly communicate with E.
Wilton.

There will be a concert, box social
and dance at Cross Roads school
house Friday, March 23rd. There
will also be a guessing contest of
how many beans in a glass jar. 50c.
will be the prize given for the cor-
rect answers. Everybody invited to
be present and help pay for the or-
gan.

Any person who says these are
hard times should have been at the
cash sale Saturday, at the Ogden
Livery Barn. Everything in sight
sold at high figures, no matter what
it was. Two year old steers aver-
aged \$61, yearlings fetched \$48, and
mares \$170 each. There was a good
attendance of farmers.

N. White the auctioneer will hold
a Big Cash Auction Sale of listed
stock at the Arlington Livery barn
at an early date in April. Farmers
are asked to list their stock with
the Auctioneer by April 1st. Advan-
tages should be taken of this oppor-
tunity being given by N. White to
farmers to get a market for their
stock, and in return this he is
filling a long felt want in the dis-
trict.

Mrs. Helen M. Wright, formerly a
soprano soloist of Toronto, but now
a member of the staff of the Indian
Industrial School, Red Deer, occu-
pied a seat in the choir of the Metho-
dist church Sunday evening last, and
delighted the congregation by sing-
ing "Jesus, Saviour, Pilot Me." In
the anthem, "Send Out Thy Light."
Mrs. Wright's powerful but yet
wonderfully sweet voice proved her
an artist whom music lovers of Red
Deer will be glad to hear often.

OUR EYE GLASS
SERVICE
is so efficient that it does
more than simply help the
sight. It relieves the
eyes and mind, too, from
strain. It very often
stops headaches that have
seemed incurable. This
service is at your com-
mand at any time. If
your sight is not right,
now is the time to have
us make it so.

Have You Any Stock or Implements For Sale?

Early in April I intend holding another Big Auction
Sale at the Arlington Livery Barn, Red Deer, and I want
to get the listing of any Stock or Implements that you may
have for sale.

This gives you a splendid opportunity to sell anything
that you wish to dispose of—and at a fair price.
Below is a form on which you will please list any
stock or implements that you want to sell.

In order to get your goods into this sale, the listing
must positively reach me on or before April 2nd, so that I
will have time to thoroughly advertise it throughout the
district.

Fill in the List Right Now!
